Markers we've designed with families

These are real design proofs — the exact artwork a family reviews and approves before we ever touch the stone. Each one began the same way: a family telling us, in a few words, who their loved one was.

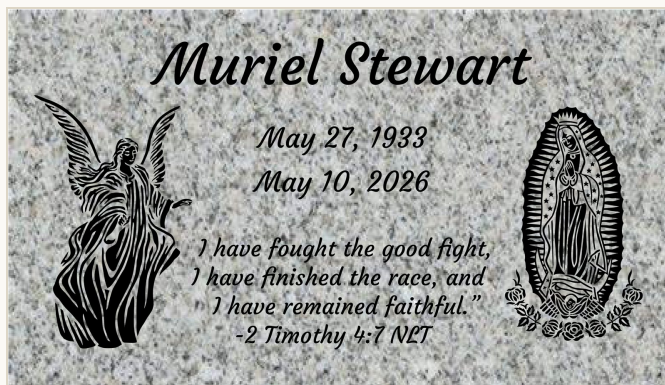

Blue Pearl with corner roses & a porcelain photo

A veteran's marker — U.S. Army seal

A whole life, carved in stone — pines, lake & his boat

An angel & Our Lady of Guadalupe — 2 Timothy 4:7

A companion marker — two photos, one stone

"Together Forever" — clasped hands in a heart

IF YOU CAN DESCRIBE IT, WE CAN CARVE IT

Start from an example — or from a blank stone

Most families simply want something to go off of. Point to any marker or design in these pages and tell us what to change — or describe something entirely your own. Everything we make is drawn from scratch, so nothing here is a limit.

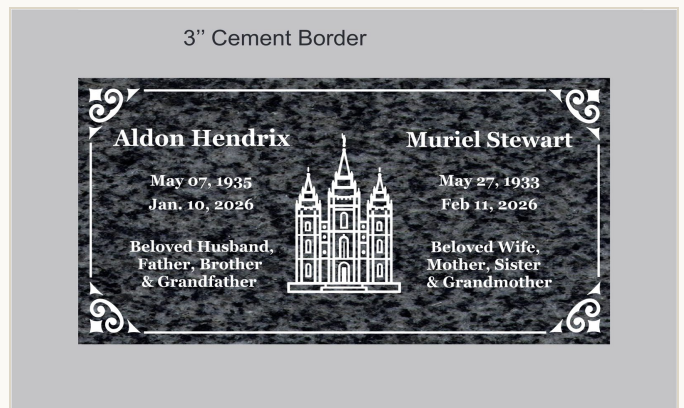

Songbirds & butterflies — Bahama Blue

A porcelain photo with hummingbird & floral cross

An open book — a companion marker for two

San Jacinto district format — with its required cement border

A LIBRARY TO START FROM

Hundreds of catalog designs — doves, roses, crosses, praying hands, angels, saints, military emblems, borders, and whole scenes — plus nineteen lettering styles. Explore and design at your own pace at socalmonuments.com/design, and we'll send back a free proof.

HOW IT WORKS

- 1 Share your vision**
By phone, email, online — or sit down with us in person and plan it together. A few words about them is all we need.
- 2 We design it from scratch**
A to-scale proof on your chosen granite, sent to your phone or email, free.
- 3 You approve — then pay**
Request as many changes as you need. Nothing is engraved until it feels right.
- 4 We engrave & deliver**
Cut, hand-finished, and delivered to the cemetery with the paperwork handled.

Tell us about them

You don't need to arrive with a design. Reply to our email, call us, or come plan it with us in person — a few of these, and we'll shape a marker around your words:

- Their name and dates
- Words to remember them by — a verse, a phrase, or we'll help you find them
- What they loved — their faith, roses, the mountains, fishing, family... anything that felt like them
- A granite color, if one speaks to you — and whether you'd like a porcelain photo

And say as much as you'd like — there's **no character limit**, and never a per-letter charge.
